

Sequence chart

Name: _____

Date: _____

Whether you're baking a cake or solving a math problem, it helps to have all the steps written out from start to finish. Use this chart to map out the steps.

1. In the top box, write your goal or topic.
2. List the steps from beginning to end in the order you need to complete them.
Put only one step in each box.
3. In the last box, write the last step.
It's OK to leave some boxes blank if you don't have enough steps to fill all of them.

Topic:
1st step: _____
2nd step: _____
3rd step: _____
4th step: _____
5th step: _____
6th step: _____
7th step: _____
Last step: _____

Topic: How to make a bird feeder out of a paper towel roll.

1st step: Get your materials: an empty paper towel roll, peanut butter, birdseed, 2 popsicle sticks, and a piece of yarn or an old shoelace.

2nd step: Have an adult poke two holes about an inch from the top of the paper towel roll.

3rd step: Thread the yarn or shoelace through the holes to create a loop.

4th step: Have an adult cut two sets of slits in the paper towel roll – one set an inch from the bottom, the other set near the middle.

5th step: Insert a popsicle stick through each set of slits, leaving room for birds to perch on each side.

6th step: Spread lots of peanut butter on the paper towel roll.

7th step: Cover the peanut butter with birdseed.

Last step: Hang your bird feeder outside.
