

Mental Health and Well-Being: Exploring Worries and Feeling Nervous Through the Reading of Picture Books (Primary)

Note:

The interest levels listed in this bibliography are those given by the publishers. Each teacher, however, needs to decide the age suitability for their own students.

The summaries are from the publishers as well and have been included to give you a quick overview of the main themes of each title. In this way you can quickly select the titles that suit the particular social and emotional needs of your students. Some of the titles fit the theme loosely and others more tightly. The titles also range from "light-hearted" to more serious in tone.

Your school counsellor is an excellent source for suggestions on how to support students when teaching more sensitive subjects.
