Twelve Terrible Things

BY MARTY KELLEY

INFERRING FROM PICTURES
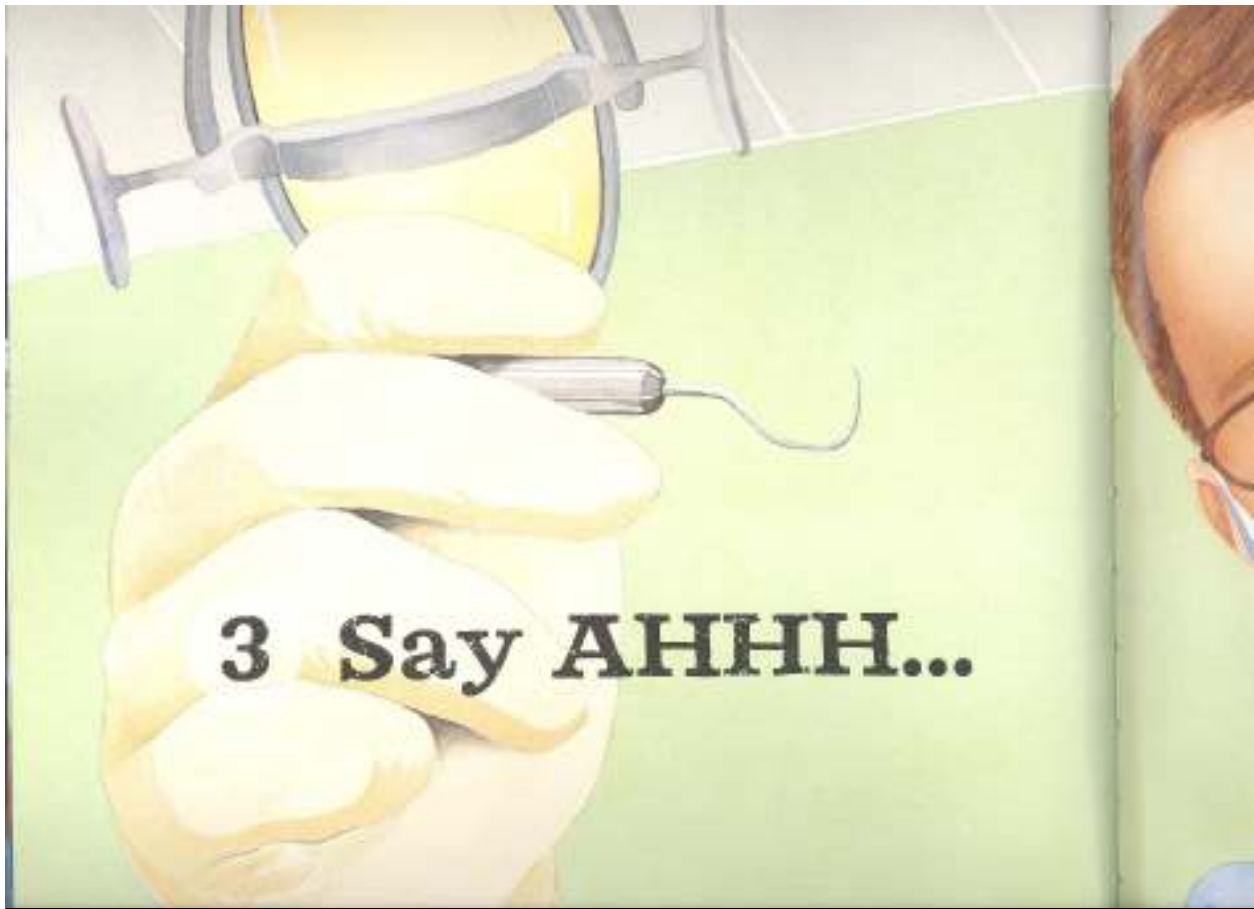

2 There's nothing under the bed...

There's nothing under the bed...

Evidence   +   Background Knowledge   =   An Inference (My Thinking)
Evidence: (this is what you see in the picture)
Background Knowledge: (this represents your experiences in life)
An Inference: when you combine the evidence and add your thinking, you make an inference

3 Say AHHH...

Evidence   +   Background Knowledge   =   An Inference (My Thinking)
Evidence: (this is what you see in the picture)
Background Knowledge: (this represents your experiences in life)
An Inference: when you combine the evidence and add your thinking, you make an inference

HOLD STILL.
I'm almost done.

| Evidence   +   Background Knowledge   =   An Inference |
(My Thinking)
Evidence: (this is what you see in the picture)
Background Knowledge: (this represents your experiences in life)
An Inference: when you combine the evidence and add your thinking, you make an inference

5 *Oh my goodness, just look at those* **CHEEKS.**

Evidence + Background Knowledge = An Inference (My Thinking)
Evidence: (this is what you see in the picture)
Background Knowledge: (this represents your experiences in life)
An Inference: when you combine the evidence and add your thinking, you make an inference

I've got one last surprise for the birthday kid!

Evidence + Background Knowledge (My Thinking) = An Inference
Evidence: (this is what you see in the picture)
Background Knowledge: (this represents your experiences in life)
An Inference: when you combine the evidence and add your thinking, you make an inference

This must be our NEW student.

Evidence   +   Background Knowledge   =   An Inference
(My Thinking)
Evidence: (this is what you see in the picture)
Background Knowledge: (this represents your experiences in life)
An Inference: when you combine the evidence and add your thinking, you make an inference

8 No, we are NOT there yet!

Evidence + Background Knowledge = An Inference
(My Thinking)

Evidence: (this is what you see in the picture)

Background Knowledge: (this represents your experiences in life)

An Inference: when you combine the evidence and add your thinking, you make an   inference

Goodbye, Goldie.

| Evidence + Background Knowledge = An Inference |
(My Thinking)
Evidence: (this is what you see in the picture)
Background Knowledge: (this represents your experiences in life)
An Inference: when you combine the evidence and add your thinking, you make an inference

10 Come on already...
JUMP!

| Evidence   +   Background Knowledge   =   An Inference |
(My Thinking)
Evidence: (this is what you see in the picture)
Background Knowledge: (this represents your experiences in life)
An Inference: when you combine the evidence and add your thinking, you make an inference

Evidence   +   Background Knowledge   =   An Inference **(My Thinking)**
Evidence: (this is what you see in the picture)
Background Knowledge: (this represents your experiences in life)
An Inference: when you combine the evidence and add your thinking, you make an inference
