

Intarsia Project

Name: _____

1. Find a picture of an Intarsia on the Internet. For example, search “Intarsia Dolphin”.
2. Open Inkscape and in “Document Properties”, select Format and change it to “US Ledger/Tabloid (11x17 in). The width should now be 17 and the Height to 11. Close the Document Properties Box.

3. Copy the image and paste it into Inkscape. Enlarge it so it takes up most of the page.
4. Now print to the Library Copier. Make sure the paper size is 11 x 17!!!

5. Using a pair of scissors, cut all the pieces out carefully.
6. Next, pick your wood from the pieces provided, then glue your paper cutouts to the wood

7. Once your pieces are glued to the wood, it is **SCROLL SAW TIME!!**
 - Cut slowly and carefully! The more accurate the cutting, the better the pieces will go together!
- 8.
