

Laminated Project Student Assessment 2026

Name: _____

Date: _____

Self - assessment	<i>Emerging (1)</i>	<i>Developing (2)</i>	<i>Proficient (3)</i>	<i>Extending (4)</i>
	Initial Understanding/Ability	Partial Understanding/Ability	Complete Understanding/Ability	Exceptional Understanding/Ability
Bill of Materials (5 marks)	Is not completed	Is pretty much complete. Totals missing, mistakes in costs	All sections Completed with totals, however, there are a few mistakes	Completed with totals and everything is accurate
Drawing in Fusion (Your plans) (10 marks)	Opportunity for growth. Is not completed. Missing parts to the drawing (4 views) Not printed out correctly on the paper (Wrong size)	Opportunity for growth. Is pretty much complete. Layout is not correct (location of 4 views) Some dimensions are present but not enough to give to someone to build	Area of strength. Layout is correct. Almost all dimensions are there. Printed correctly on paper	Area of strength. Layout is correct and all dimensioned to be able to build the project. Printed correctly on paper
Final End Product Compared to the Drawing (10 marks)	Opportunity for growth. Does not resemble the drawing, Extra pieces, Needed to modify/change the size of pieces compared to the drawing	Opportunity for growth. Resembles the drawing. A piece has been modified. Overall dimensions are different by more than 2"	Area of strength. Looks like the drawing (all the pieces are there) The size/location of pieces is out by more than more than 1/8"	Area of strength. Looks exactly like the drawing and measures within 1/8"
Quality of Construction, Gluing up & Glue joints, etc (5 marks)	Opportunity for growth. Large gaps in joints Wobbles, corners uneven	Opportunity for growth. Small gaps in joints Wobbles a bit, and corners uneven.	Area of strength. Slight or no gaps in glue joints and/or wobbles just slightly, corners symmetrical.	Area of strength. No gaps and does not wobble, perfectly symmetrical.
Sanding & Finishing (10 marks)	Opportunity for growth. Large scratches and/or burns in the wood. Dents and bumps present Project is sticky to the touch	Opportunity for growth. Some small scratches in the wood. The odd dent, bump or burn still. Project is not smooth to the touch	Area of strength. The odd scratch still or the project is not 100% smooth to the touch	Area of strength. Absolutely no scratches in the project and it is as smooth as glass to the touch.
Overall Impression & Appearance (10 Marks)	Opportunity for growth. Basic design, proportions are off, staining, glue joints, scratches dents detract for the physical appearance	Opportunity for growth. Proportions are off, staining, glue joints, scratches dents detract for the physical appearance. NO cnc/Laser	Area of strength. Looks pretty good, CNC, laser add to the physical appearance, but things are not centred or something detracts from appearance	Area of strength. Looks like something you would buy in a store. CNC and Laser add to the overall looks and enhance the product significantly.

Answer the Following

Total (Grade 10) _____/50

1) What are 1-2 things that went well on your project/what you are proud of?

2) What are 1-2 things you would do differently or improve on next time?
