**Professional Learning Communities often take up to three years to fully mature and produce consistent results in student learning. The next 2 questions seek to determine where you feel we are on the spectrum of PLC development. Please consider the STAIRS model and following quote, and choose a category below that best describes where your team/school was situated in relation to the definition at the beginning of the year?**

"An effective professional learning community has the capacity to promote and sustain the learning of all professional and other staff in the school community with the collective purpose of enhancing pupil learning." (Creating and Sustaining Effective Professional Learning Communities, Louise Stoll et al, 2005, p 181)

working to re-establish what we had previously achieved as a professional learning community (starting on 2nd cycle from last year's inquiry)

**Where do you feel your group fit on this continuum at the end of the year. At the end of the year our team was:**

starting the journey to becoming a professional learning community.

**Where would you say your team is currently located on the Action Research wheel? (See Action Research model above:**

**9. What might be helpful to have/know/do next time in order to improve results or move forward?**

We would prefer to spend as much time as possible in our smaller PLC group meetings as opposed to the large school wide PLC meetings. Consistency in staffing year to year so we can carry on our PLC focus.

What's next? We will keep you informed as to where the collection of responses may be accessed, ideally by late May or Early June. It was asked that we have the results of this form sorted into a key-word searchable format, which requires working with IT to develop an appropriate platform or platforms. Themes will also be pulled from the data and shared district wide. Thank you.
