4. Planning: What is/was your Inquiry Question?

How will incorporating outdoor education into the curriculum help engage reluctant learners?

5. To what student need are/were you responding? What student learning issue did your team focus upon or seek to improve?

Student engagement, especially kids who need to move to learn; healthy living

ACTING

6. What actions/interventions/strategies did you or will you implement or explore?

We built an outdoor classroom and trails, gathered lesson materials, investigated First Nations connections and investigated garden options

7. What resources, materials, links, tools, experts, or research did you use?

Please provide details so others may easily access those same resources in their similar inquiries.

Lesson materials shared from Brooklyn El, Ab Ed resource person, students and parent volunteers for trail building, material donations

7a. Did your team or school co-create any new tools, assessments, learning resources or materials as a result of your inquiry?

Linking the redesigned curriculum into outdoor ed lesson plans

7b. If yes, for what grade level or subject area are they best suited?

Primary

7c. If these tools, assessments, rubrics or materials could/will be made accessible for other educators, where will they be located? (i.e. LRC, online links, at your school?)

at our school

OBSERVING

8. What are/were the results of your inquiry/implementation/project on student learning? What changes, if any, did you see in student learning, behavior or engagement that correlates to your team's interventions?

We had lots of students very engaged to be learning outside. Kids would look up information once they were back in the classroom

9. What types of information/observations/data did you monitor or collect to confirm whether or not your intervention is/was working? (i.e. qualitative, anecdotal, quantitative sources: surveys, student journaling or student work, changes in attendance or behavioral incidents, before/after videos, test scores, DART, observational checklists, student self-evaluations, interviews, completions rates.)

anecdotal observations, parent feedback

10. What were some of the student learning highlights that your team shared that could be shared with others? What student successes/stories stood out for you?

Lots of enthusiasm

11. If you feel your initiative did not improve student learning at this point in time, why do you think that might be? Can you identify any impeding factors? What advice would you give peers who are exploring similar issues to help them avoid these impediments?

n/a

REFLECTING

12. What are/were some of the highlights experienced in your Professional Learning Community journey so far? What worked well?

Kids wanting to come to school; a cabane sucre party in the forest

13. What are/were some of the challenges experienced in your collaborative learning community? (By sharing this information, we are better able to identify needed resources or solutions.)

running out of time to do all we wanted to do

14. What do you believe would be helpful to have/know/do next time in order to improve results or help you or your learners move forward?

lack of funds for materials

15. What are your next steps, moving forward?

Continue with same inquiry

Thank you for your time and for sharing your insights, resources and learning with your colleagues and the educational community.

The results of these Share Out templates will be sorted and posted on the Learn71 website by July 2016, so all educators will have access to the information in time for fall 2016 planning. If you have any questions or concerns about the questions in this template, email SD71PLC@gmail.com. If you have technical difficulties, please contact the IT help desk. Thank you
