

SD71 ACCESSIBILITY TECH TIP

Using Dom Distiller with Databases, Websites, e-text or computer program

ABOUT: In this activity, participants will learn how to use Dom Distiller (Distill) Extension (loaded on SD71 computers) with the District Databases, websites, e-text or any computer application. Dom Distiller (Distill) removes visual clutter from web pages and articles making them easier to read. It has built in options for changing the screen contrast and font types.

WHAT YOU WILL NEED: A computer with Google Chrome Browser and an internet connection with the Distill installed (If the Dom Distiller extensions is not installed click [HERE](#).) You will know **Dom Distiller** is added because you will see three purple dots  in the upper right hand menu bar. (SD71 computers have **Dom Distiller** installed already)

A computer or laptop

1

In Chrome open a text article (web page) that you want to read and click on the 3

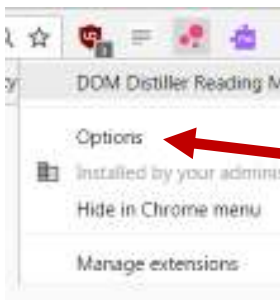

2

The webpage will then open in a decluttered format.

3

Right click on the 3 dots to customize the appearance of the webpage by choosing "Options"

4

Click on the 3 options to change the contrast (Themes). Similarly click on the 3 options to choose the font.
