

Animals of the Arctic

by Susan LaBella

The Arctic is a snowy place. Come meet some animals that live in this icy habitat.

Polar bears live in the Arctic. These big white animals live mostly on land. They also spend time in the cold Arctic Ocean. Polar bears look for food in holes in the ocean ice. They like to eat seals and walruses.

The white snowy owl flies in the Arctic. In the daytime, it hunts for food. The snowy owl can eat some small animals whole.

Seals swim in the Arctic Ocean. They catch fish to eat. They like to slide on the ice, too!
