<p><b>Knowledge Gained</b> Submission should demonstrate knowledge and understanding of how we can help our planet and the people who live here.</p>	Submission doesn't show that any research was done to understand the UN Sustainable Development Goals.	Submission somewhat addresses the problems and demonstrates that research may have been done but it not clearly presented. What the team learned was somewhat shown in the build.	Submission demonstrates the topic was researched and one UN Sustainability goal is shown and presented clearly. What the builder(s) learned is clearly described.	Submission shows evidence of research into problems that our world is facing and an accurate, clear solution to at least one of the UN Sus. Dev. Goals. Builder (s) knowledge of theme is clearly shown.	
<p><b>Design</b> Minecraft Build demonstrates clear solutions for how we can help our environment, community and individuals. Minecraft design features are used to show the solution (s).</p>	The submission doesn't address the theme. The Minecraft build doesn't show a clear solution to a UN Sus Dev Goal.	Builder (s) used design elements of Minecraft to design a solution to a UN Sus. Dev. Goal. Some elements detract from the theme.	Submission demonstrates a clear solution to a UN Dev. Sus. Goal and features of Minecraft were used to enhance the build.	Submission shows a meaningful solution to at least one UN Sus. Dev. Goals. Features of Minecraft are used to create a realistic (can be futuristic) solution.	
<p><b>Originality and Creativity</b> Minecraft build should show creativity and original thought in the solution to the UN Sus. Goal problem (do not use pre-builds).</p>	The submission lacks original thought and creativity.	The submission is somewhat creative.	The submission is original and creative. Some innovative or creative solutions are explored.	The submission is original, creative, and meaningful and provides an original solution to a real-world problem.	
<p><b>Oral Presentation</b> Students should submit a video in Flipgrid that clearly outlines the problems that they were working on and their solution. They should explain all the features of their build.</p>	Submission video minimally explains the build and how it solves a Un Sus. Dev. Goal. Speaking wasn't clear.	Submission video somewhat explains how the UN Sus. Dev. Goal was solved. Speaking was somewhat clear. Not all of the elements are clearly explained.	Submission video identifies the UN Sus. Dev. Goal that was addressed and the speaking clearly explains how the build solves the problem.	Student (s) describe the details of their project explaining how they solved one or more of the UN Sus Dev Goals and how it will help the world. Speaking was clear and easy to understand. Special features of the build are showcased.
