

Share YouTube & Vimeo content safely & without distractions using the Quietube application –

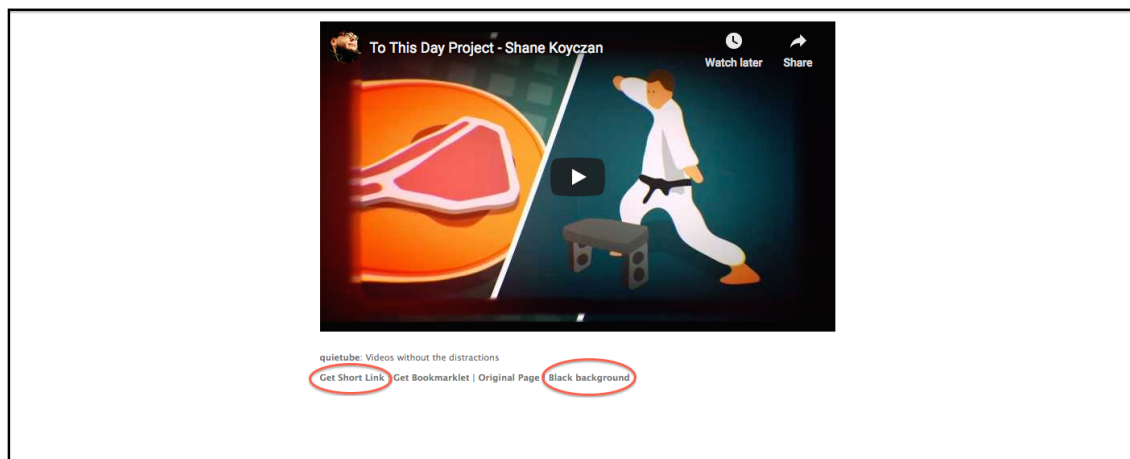

To share & watch web videos without the comments or surrounding distractions:

- follow this [LINK](#) & drag the Quietube button to your browser's bookmarks bar
- search material on supported video content pages: YouTube & Vimeo
- simply click the bookmarked Quietube button to de-clutter the page
- share the Quietube link (see below to shorten URL) with students / in lessons

Compare regular YouTube link:

With Quietube:

Extra options (links circled in red above):

- make short URLs of the Quietube version to share
- change the background screen from white to black

* 30 sec demo video [LINK](#) + more [INFO](#) on Quietube & similar alternatives
