

Hello:

The LRC library clerks are currently processing a substantial number of new **JillE levelled readers** by Nelson, the publisher of the **PM Family** of levelled books. The JillE kits are starting to come on-line in Destiny and will all be available for booking before the next school year's opening booking day which is Wednesday, August 31 at 3:30. The books are visually appealing professionally levelled fiction and non-fiction titles that I found my students enjoyed reading and re-reading to improve fluency. Links to more information on the JillE books are listed below.

I have also attached a **conversion chart**, as the LRC offers two different assessment kits as well as their accompanying support readers:

Fountas and Pinnell assessment and leveled readers that use a **Guided Reading** alphabetical system, and

PM Benchmark assessment and levelled readers that use a numerical system.

The conversion chart enables you to use the LRC leveled readers from either system regardless of the assessment tool you use.

Note that if you like these readers and would like to purchase them for your school, I recommend you wait until Nelson advertises their 35% discount on them, that this past year occurred just before Christmas as well as the spring to June timeline.

What the kits look like in Destiny:

	JillE literacy readers: level B, set 1 Call #: KT 372.4 JIL LEV B-1 Published 2022 Interest Level: K-3	Details Eggleton, Jill.
	JillE literacy readers: level C, set 1 Call #: KT 372.4 JIL LEV C-1 Published 2022 Interest Level: K-3	Details Eggleton, Jill.

The conversion chart (posted to the LRC section of learn71 for future reference as well as attached):
