

New LRC Core Competency “Collaborating” kits

June 8, 2022

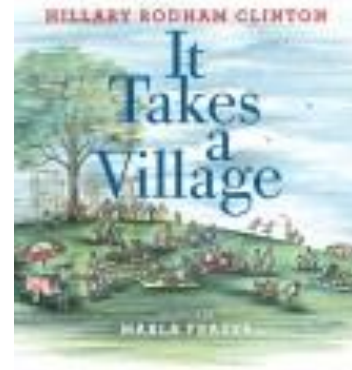

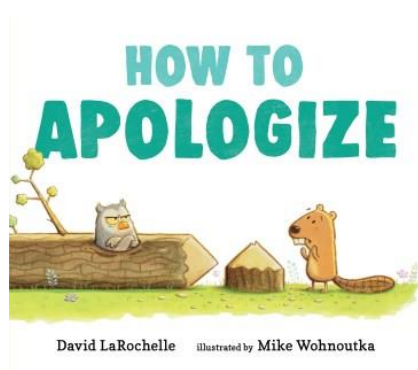

Dear Colleagues:

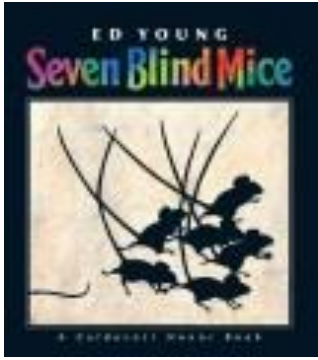

The LRC has new kits to support the teaching of the Core Competency “Collaborating”, through the use of picture books, non-fiction books and novels. The annotated bibliography for each kit describes each title to enable you to quickly identify the books that touch upon the specific aspect of collaborating that you wish to focus on.

To pull them up in Destiny do a keyword search for “collaborating”:

	<p>Collaborating : conversations through literature for intermediate students Details</p> <p>Call #: KT 302.3 COL Published 2022</p>
	<p>Collaborating : conversations through literature for primary students - set 1. Details</p> <p>Call #: KT 302.3 COL Published 2022 Interest Level: K-3</p>
	<p>Collaborating : conversations through literature for primary students - set 2 Details</p> <p>Call #: KT 302.3 COL Published 2022 Interest Level: K-3</p>
	<p>Collaborating : conversations through literature for primary students - set 3 Details</p> <p>Call #: KT 302.3 COL Published 2022 Interest Level: K-3</p>

Here are some titles in the kits to wet your appetite:

A big thank you to the LRC Library Clerks (Jana Allingham, Joan Wynden and Helena Kelland) for processing and circulating these kits and Heather Mercier for doing all the paperwork!

Enjoy!

Joan
