Using Seeing AI to Support Reading
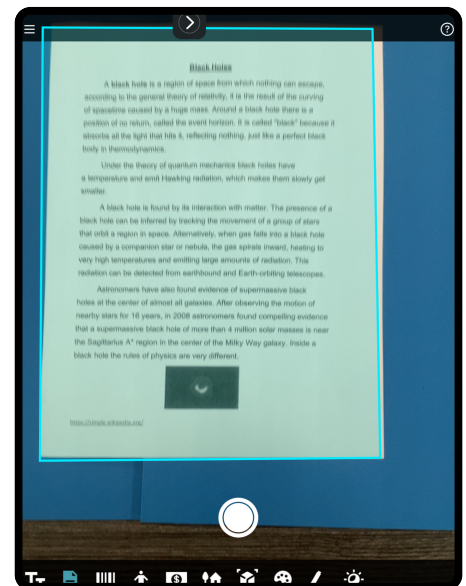

Short Text

1. Tap the "Seeing AI" icon to open the app.
2. Select Tt tool "Short Text"
3. Hold iPad/iPhone, over the text to be read make sure it is level so it all fits in the screen
4. Once the app has a clear picture of the text, it will read it out loud.

NOTE: It may help to have a crop frame around the text you wish to read.

Document or Handwriting

1. From the options at the bottom of the screen, touch – "Document icon" or the "Handwriting icon". The icon will turn green to when it is selected.
2. Hold your iPad/iPhone, level over the text to be read, so it all fits on the screen.
3. Once the app has a clear picture of the text, it will capture the text, process it using OCR and provide options for reading.
4. Touch the "Play Arrow" ▶ to have the text read out loud.

Note; Seeing AI can be used for reading worksheets, novels, handouts, notes on the board or other items with text.

SettingOptions, (Voice)

1 Touch the three white lines (top left) of the screen to open the settings.
2 Touch the "Settings" option.
3 Change the settings as required. Choose Voice. Use your finger to slide the white button on the "speech bar" to adjust the reading speed.
