

Edit PDF in Edge

Annotate a PDF using Windows' built-in web browser, Microsoft Edge. Insert a text box and type your text.

Enable text suggestions		
<p>1</p>	<p>Right-click the PDF file you want to edit. Then click Open with > Microsoft Edge.</p>	
<p>2</p>	<p>Your PDF will open in a Microsoft Edge window along with a menu bar of annotation tools. Click the Text tool, and then click the space where you want to add text.</p>	
<p>4</p>	<p>Type in your desired text. Then use the text menu above your text box to customize your text color, size, and letter spacing.</p>	
<p>5</p>	<p>Once you've finished editing your document, click Save or Save As from the browser menu.</p>
