2023-24 MINECRAFT CHALLENGE: SECONDARY RUBRIC

Criteria	1 - Emerging	2 - Developing	3 - Proficient	4 - Extending
Information / Design	Limited details about the theme park; unclear choice of location in the Comox Valley or how it influences the park's design.	Basic details about the theme park; some explanation of why the location in the Comox Valley was chosen, but connection to design could be stronger.	Detailed design incorporating the essence of Comox Valley; clear reasoning behind the choice of location and how it enhances the park's theme and sustainability.	Exceptional design that captures the Comox Valley spirit; insightful and strategic choice of location, fully integrated into the park's theme, sustainability, and innovative features.
Originality & Creativity	Basic theme park design with minimal creative elements.	Theme park design includes some unique features, but more creativity could be used.	Creative and original design elements that enhance the theme park's appeal and reflect Comox Valley's character.	Highly original and creative design, setting the theme park apart with unique attractions and a strong sense of place.
Oral Presentation	Basic presentation with limited explanation of the theme park's design and features.	Clearer presentation, but lacking depth in explaining the significance and details of the theme park.	Well-delivered presentation, clearly explaining the theme park's design, sustainability features, and connection to Comox Valley.	Exceptional presentation, articulately and engagingly explaining every aspect of the theme park, including its unique features and sustainable practices.
Design Elements	Basic use of Minecraft elements like simple structures or basic transportation systems.	Incorporation of more complex Minecraft elements like railways, NPC characters, or basic redstone mechanisms.	Advanced use of Minecraft elements such as redstone contraptions, unique building techniques, or interactive features.	Innovative use of Minecraft elements, including advanced redstone engineering, unique architectural styles, and interactive experiences.
