

Combine Books in Book Creator

Create a collaborative book in Book Creator where each student creates their own page in their own book and then the teacher combines all of these books into one book.

Creating a Collaborative Book	
<p>1</p> <p>Create a new book in Book Creator and “Assign” the book with your students. This is done by clicking on the ‘...’ -> “Share” -> “Assign book”.</p>	
<p>2</p> <p>Select “Everyone in the library”. Once the book has been assigned, each student can create their own page in their own book.</p> <p><i>They can add text, images, videos, and voice recordings to their page.</i></p>	
<p>3</p> <p>After each student has created their own page, the teacher can combine all of the books into one book. To do this, click on ‘...’ -> “Combine books”.</p>	

4 Select the books you want to combine in the order you want them to display in the book. If the books are different shapes, the combined book will always be a landscape book.

Click **“Next”**.

5 Give the new combined book a name and click **“Create Book”**.

The new book will appear on the bookshelf, with an auto-generated front cover.

6 Opening it allows you to edit the cover . . .

And clicking on the **“Pages”** link will allow you to re-order the pages.
