

Speech Controller on iPad

Speak Selection allows the iPad user to select specific text to be read out loud. However, this needs to be set up in the settings before it is used.

Setting to Enable Speech Controller		
1	In Settings: Accessibility > Spoken Content > Turn on: Speak Selection and Speak Screen. Tap on Speech Controller > Turn on Speech Controller at the top.	Settings Constant Sounda Speak Solaction Focus Speak Solaction Sounda Speak Solaction Speak Solaction Speak Solactio
2	Notice, once the Speech Controller is on, a little button appears on your screen. This will allow you to control when you want text read aloud. The button can be dragged and repositioned anywhere on the screen.	Show Controller The speech controller allows quick access to Speak Creen and Speak on Touch Perpand the controller and press play to start reading al content. Expand the controller and tap on the finger icon to start Speak on Touch. Then tap or drag anywhere on the screen to hear the content under your over. If your finger to exit Speak on Touch CONTROLLER ACTIONS Long Press Read All Content Double Tap
Using Speech Controller		
3	Click on the speech controller button. It will open up with 5 buttons. Select the play arrow to read from the top of the page. NOTE: If you are reading text from a website, use Reader Mode to eliminate anything BUT text such as menus or headers. (Tap on AA in website address bar).
