

Creative Commons Search in Google

In order to ensure safe and ethical use of images from a Google search, filtering out the images to Creative Commons only will ensure the images you use fall within these parameters.

<p>1</p>	<p>Type in Google search -> narrow down to images only.</p>	
<p>2</p>	<p>Once in the images feature, click on "Tools" -> Usage Rights -> Creative Commons <i>(Because it under the educational realm, you do not have to choose commercial)</i></p>	
<p>3</p>	<p>You can then identify the specific image search under the filters applied. Save the image then insert into the editing program.</p>
