Bibliography

This kit contains a wide variety of individual titles that fit the genre category of “Science Fiction.” The titles vary in their interest levels, reading levels, number of pages, themes etc., in order to provide students with “choice” in their reading for pleasure. Note that if more than one interest level (IL) is listed, the first is from the publisher. Publishers tend to rate titles for lower grade levels than reviewers.

If you would like a second or third copy of a title, or more titles beyond what is in the kit, your Teacher-Librarian or Library Clerk will be able to help you find titles in your school’s collection, or interlibrary loan copies from other schools.

We hope that your students enjoy these titles and expand the genres that they regularly choose to read. A “Passport to Genres” activity, where students read one title from each genre, is one way to encourage this. If you have any questions about any of them, please feel free to contact me.
