Join SpacesEDU

- Your student's teacher will invite you to join their SpacesEDU Class
- Keep an eye out for an email from noreply@app.spacesedu.com

Posts & Interactions

- Accept new invites
- Access and edit your account information
- Edit your notification preferences (opt in or out of in-app and email notifications)

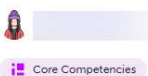

The screenshot shows the Spaces app interface. On the left, there's a sidebar with 'All Classes' and '2 Students'. The main area shows a list of classes, including 'Career Life Education (CLE)'. On the right, a detailed view of 'Ms. Silva's Grade 4 Class' is shown, featuring a 'New Notifications' button and a user icon with a '2' next to it. Red arrows point from the '2 Students' button in the sidebar to the '2' next to the user icon in the class view, and from the 'New Notifications' button to the '1' next to the user icon in the class view.

When you log into your Family Account, you will see your student's class(es). The 'Blue' class is a feed of everything your student has done.

If you have several students who are using SpacesEDU, you can view their work from the same account.

Personal and Social: Caring for the environment

In class today we planted trees. We need to plant trees because plants clean the air. There is a lot of pollution but trees help.

I really like animals, and many animals live in trees and need trees for f...

Ms. Silva • Teacher

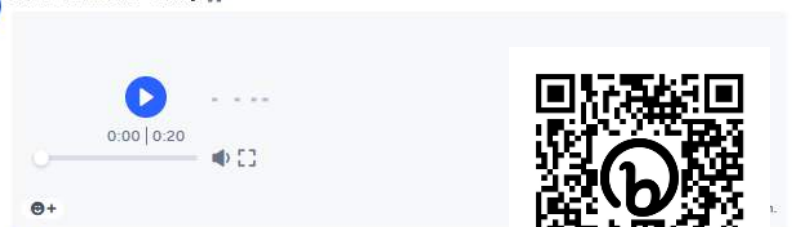

This was a lot of fun (even though it was raining!)
What is one activity that you can do outside of school to help the environment?
