

The **Live It Earth** bilingual resource focuses on place-based learning experiences using digital storytelling methods. The resource offers video-rich programming informed by Indigenous perspectives and supplemented by extensive instructional supports.

RELEVANT PROGRAMS

Each season includes **six new or updated programs**, which are added to the content catalogue. All programs include teacher timelines, checklists, and PD support.

Create personalized collections to match **language, grade level, and BC curricular interests**, and to learn from **local First Nations communities**.

FEATURED TOPICS

Climate-focused programs include Glaciers, Energy, Forests, Weather, Farming, and Oceans, as well as Salmon, Orcas, Arctic Fox, Belugas, Narwhals, and the Grey Wolf.

Featured places and communities include the Arctic, Deep Sea, St. Lawrence Estuary, Mackenzie Delta, Cheslatta Carrier First Nation, and W̱SÁNEĆ First Nations.

PRIOR KNOWLEDGE

Before watching the 20- to 30-minute **feature show** with experts in the field, explore the introductory slideshow, **Glossary**, and **Inquiry Guide** with students.

Use the provided **Creative** and **STEM Challenges** to build engagement and cross-curricular connections.

POST-VIEWING ACTIVITIES

Following the feature show, explore further with **Deep Dives**, and **Live It 360°** interactive experiences. Engage in **Story** and **Game Challenges**.

Students can undertake **self-assessment**, accept each program's **Call to Action**, and explore career pathways.
