Setting User Preferences in MyEd BC

1	Log in to MyEd,	
2	Click on U**ser name (top right) -> Set Preferences**	
3	Under the **"General"** tab you can set your default view (if you have more than one type of access), your default school (if you have more than one school – use the picker). Check the box beside **"Show lower page controls"** so you can see the scroll bar and next tabs at the bottom of the screen.	
4	If you haven't done so already, go to the **"Security"** tab to set up the security question to reset your password if you've forgotten it. This is also where you can change your password.
